PLEASE NOTE – Important Changes to the reporting of B2B lighting equipment

- **Household and non-household LED retrofit lamps and modules.** These come in a range of formats including replacements for fluorescent tubes or traditional light bulb shapes and modules incorp an integrated LED light source. Under 2006 Regs these were reported in cat 5. Under 2013 Regs these should be reported in **cat 13** in the transitional period (1 January 2014 to 31 December 2018).
- **Non-household luminaires incorporating an integrated (i.e. non-removable) LED light source.** Under 2006 Regs these were reported in cat 5. Under the 2013 Regs thesesould be reported in **cat 13** in the transitional period (1 January 2014 to 31 December 2018), but would not be classified as hazardous waste unless they contained any defined hazardous substances.
- **Non-household luminaires that do not incorporate an integrated (ie non-removable) LED light source are in scope of the Regs and in cat 5.** Some non-household luminaires are sold with a replaceable light source (eg a traditional gas discharge lamp or removable LED light source). The lamp or other light source is in scope and should be reported in cat 13.
